Design Inspiration

Ansel Adams
nationalparks.org
Theodore Roosevelt

As you trek through this **new FOUNDATION Chapter I Catalog**, you will notice that **we** have **designed** some new mirrors based on a **rugged** and **gritty** Americana theme. Much of our **inspiration** was culled from the 1930's photography of **Ansel Adams, US National Parks**, and the **good old-fashioned** road trip.

We felt there was a need for **high quality USA manufactured** framed mirrors, and this **pushed** us to create something that expresses the **American fine aesthetic taste**.
